

Virtual Gyre
CCA Creative Project Management Seminar Semester Research Projects

OAN Wikipedia Projects
Subcommittee Mission: Create wiki-pedia-like structure to provide definitions, background information, and further research links for concepts and topics that are referenced in OAN project pages.

- Monica:** organize wiki-pedia-like structure for this, on OAN (or not). Ocean Acidification research as test page--structure existing and emerging information for greater use of OAN community. Maybe organize Wiki-pedia like structure for this, on OAN or not
- Pedro:** Database of Species impacted by plastic, which ones are in more danger--which plastics affect which species. What kind of interface?
- Jeronimo:** Climate change and rising sea levels. Connecting research to funding. Increase awareness of impacts of rising water levels.
- Digo:** Open-source bio-remediation and active cleaning manual
- Victor:** 1. Plastics harvesting from oceans--skimmer ships that collect and process ocean garbage for useful purposes. 2. Ocean acidification.

OAN Projects and Profiles
Subcommittee Mission: Improve Structure of Profile and project information to better capture resources and present project details.

- Adam:** 1. on OAN, update the way to do profiles 2. Improve way to offer services, make it easy to connect projects to knowledgeable fabricators and consultants. 3. Project Prototyping through OAN--look at parallels with micro-lending service, service/needs matchmaking
- Digo:** 1. Google Earth Overlay, 2. *OAN profile improvements, (See Adam and Rache's ideas) 3. Ocean pollutants manual
- Brandon and Tony:** TrashTalk through Google Earth
- Chanelle:** 1. Structure Analysis Drive; 2. Database for designs to get/share more information, to get multiple people more involved. 3. Subspace, a way for people to donate through My-Space or other networking--connected to Adam's project?

OAN Project Support
Subcommittee Mission: Improve opportunities to solicit financial and in-kind project support within the OAN interface.

- Andrew:** Sponsor an Island--Reuse of trash, bottle redesign
- Lauren:** Virtual Funnel. Curatorial aspect--collecting of things and formatting. Reach out to other projects. Connect together info about the related charitable organizations. Both publicize and fund raise through T-shirt design/sales

OAN Collaboration and Social Networking Projects Subcommittee
Mission: Create better opportunities for distance collaboration and project delivery structures within the OAN interface

- Rachael:** Crowd-sourcing for design, look at the OAN through the lens of the San Jose Project, find parallels and resources for the PacRim project.--How to make OAN more collaborative for ideas sharing
- Walter:** Team Real Records. Use social networking applications to funnel real time project activity info into a centralized searchable space (blog?) so everyone can see the process. OAN interface for iphones
- Pearl:** Distance Collaboration, survey of existing systems, testing options on PacRim Studio project
- Tan and Pia:** Graphic interface for time-based collaboration--calendars

Not Sorted Yet **Jake:** TBD--school collaboration on Pac Rim Project?
